Caring for You & Your Budget — Key Notes (Nov 13, 2026)

Keep this next to you during the webinar. Plain words, the key lines, and what to say when a question gets personal.

The one-page version

Caregivers Month webinar in two parts: CARING (you matter, running-on-empty signs, medication time made easier + free check) and BUDGET (bills on one page, call-and-ask, small steps). Giving close: 2-1-1 and respite.

Lines to say exactly

'You cannot pour from an empty cup.' 'They do not advertise hardship programs — you have to ASK.' 'Your medication check is free — always.' 'A break is not giving up — it is how caregivers last.'

Keep prices out

Teach the budget step free tonight. If a family wants help doing it, that is the budget session — book the free first talk and talk details there.

Never promise

No savings promises and no approval promises. Companies decide discounts; SSA decides benefits.

If you get a hard question

Say: 'That one needs your family's private details. Book your free first talk and we will go through it together.' Then move on kindly.
