JESSICA ALVAREZ

Special Needs Disability Consultant & Advocate

SOUTHERN OAK FINANCIAL & WELLNESS

San Antonio, TX — serving San Antonio, the Rio Grande Valley & surrounding cities · Virtual services by Zoom · English & Spanish

WHAT WE DO

- **Personal plans for children and young adults, ages 5–26** — our specialty: a written, step-by-step plan built for each family (benefits, services, school-to-adult transition, and the road to 18 and beyond), delivered as a 1-year membership with updates as the family's situation changes
- **Benefits application help** — step-by-step guidance for SSI and public benefits applications, renewals, and paperwork families struggle to complete alone
- **Medication assistance navigation** — free medication cost checks and hands-on help with manufacturer assistance applications
- **Budgeting help** — a step-by-step walk through the family's monthly bills, with simple call tools to ask bill companies for lower prices; a Budget + Credit bundle is also available
- **Life insurance consultations** — licensed agent (PFA), E&O insured
- **Free parent education** — free Zoom classes for families (SSI, SSDI & DAC basics) and a free first consultation for every family

WHO WE SERVE

Families raising a child or adult with a disability — middle- and low-income households who are often lost between agencies, waitlists, and paperwork. Families reach us in English or Spanish, entirely by Zoom, with a free first step and prices set per family by household income.

EXPERIENCE & STANDING

- Five years serving the special-needs community, including ABC of Southwest Texas
- Two years with a medication assistance program
- Advocate work with Bexar County–area organizations, including University Health and CommuniCare
- Doctoral candidate in Education — Organizational Leadership, focus on special needs
- **HHSC Community Partner Program** — enrollment in screening · **2-1-1 Texas** — listing in review (Alamo and Rio Grande Valley regions)
- A personal understanding of this road: diagnosed with juvenile rheumatoid arthritis at age 11, and raised by parents who fought the same SSA and medication battles our families face

WHAT WE ARE SEEKING

Community and value-added partnerships with Medicaid health plans; navigation and application-assistance referrals; and subcontracted Individualized Skills and Socialization (ISS) services under HCS / TxHmL program providers. We are the bilingual, disability-focused front door your members already trust — we help them finish the paperwork, keep their benefits, and find the services they qualify for.
