Caregivers: Why You Need Life Insurance Coverage — Key Notes

The short version of each slide — keep this next to you on Zoom.

Slide 2 — Tonight Is for You

• You care for your child or loved one every day.
• You give your time, your sleep, and your money.
• But who takes care of things if something happens to YOU?
• Tonight we talk about that — in plain, simple words.

Slide 3 — The Hard Question

• If you got very sick, hurt, or passed away — who would step in?
• Who knows your child's medicine, doctors, and daily care?
• Care like yours costs money. A new caregiver must be paid.
• Life insurance is one way to make sure the money is there.

Slide 4 — What Life Insurance Does

• You pay a small amount each month.
• If you pass away, the company pays money to your family.
• Your family can use it for care, the home, bills, and daily life.
• It is a promise, in writing, in a policy.

Slide 5 — Living Benefits: Help While You Are Living

• Many policies from National Life Group have Living Benefits.
• If you get very sick or hurt, you may be able to use part of the money early.
• That money can help with bills and care while you get better.
• Rules apply — we read them together, in the policy, before you decide.

Slide 6 — Why Caregivers Need It Most

• Your family counts on you every single day.
• If you are gone, your loved one still needs the same care.
• Coverage helps pay the people who would take over your care work.
• It gives your family time — time to grieve, and time to plan.

Slide 7 — Start Small — Start Now

• You do not need a big policy to start.
• A small policy is better than no policy.
• Coverage costs less when you are young and healthy.
• Waiting can cost more — or it can be too late to get it.

Slide 8 — One Very Important Rule

• Do NOT name a child who gets SSI or Medicaid as the one who gets the money.
• That money can stop your child's benefits.
• Most families use a Special Needs Trust instead.

• An attorney sets up the trust. We can point you to the right first step.

Slide 9 — What It Does Not Do

• It does not promise you will be approved. The company decides.
• It is not a bank account, and it is not long-term care insurance.
• Using Living Benefits lowers the money left at the end.
• We read the real rules with you — no surprises, no pressure.

Slide 10 — Your Free Talk

• Your life insurance talk and your quote are FREE.
• You pay only if you say yes to a policy.
• We go at your pace. No pressure, ever.
• Book at southernoakfw.org — or email southernoakfw@gmail.com.
