Caregivers: Why You Need Life Insurance Coverage — Speaker Notes

Free Zoom Webinar • Friday, November 13, 2026 • 6:30–7:15 PM CT • Jessica Alvarez, Southern Oak Financial & Wellness

Slide 1 — Caregivers:

Welcome everyone. Tonight is for YOU — the parents and caregivers. You take care of everyone else. Tonight we talk about taking care of you, and why life insurance coverage matters for the person who gives the care. Keep it warm and simple. This is education, not a sales talk.

Slide 2 — Tonight Is for You

Start here. Most caregivers never stop to think about themselves. Ask them to think about one question tonight: if I could not care for my loved one tomorrow, what would happen? We will answer it step by step. No pressure, no sales talk.

Slide 3 — The Hard Question

Say this gently. This is not to scare anyone. It is a plan, like a fire drill. The money from a policy can help pay for care and help the family keep going while they adjust.

Slide 4 — What Life Insurance Does

Keep it very plain. A policy is a written promise. The amount and rules are in the policy. Tonight is education only — no one has to decide anything tonight.

Slide 5 — Living Benefits: Help While You Are Living

Living Benefits come from Accelerated Benefits Riders. The money is paid on a discounted basis and lowers the final amount. It is not long-term care insurance. Keep the honest lines: rules, limits, and waiting times apply, and it can affect taxes and public benefits — we always say to ask a tax person.

Slide 6 — Why Caregivers Need It Most

This is the heart of the night. The caregiver IS the plan right now. Insurance turns 'me' into a real plan that still works if something happens to me.

Slide 7 — Start Small — Start Now

Many families think they must start big. They do not. Start where the budget fits. And be honest: if health changes, a person may not be able to get coverage later. Getting it while you can is the point.

Slide 8 — One Very Important Rule

Say this clearly. This is the mistake we never want a family to make. The trust is usually the one named in the policy. Southern Oak does not set up trusts — an attorney does. We help families see the whole picture before they sign anything.

Slide 9 — What It Does Not Do

Our honest slide. Families trust us because we say the hard parts out loud. Everything is in the policy, and we go through it line by line in a free talk before anyone agrees to anything.

Slide 10 — Your Free Talk

Close warm. Your talk and quote are free until you agree to a policy. If they want a talk, they can book on the website or send an email. Thank them for caring for their families — and for coming tonight.

Slide 11 — Thank You

Thank everyone. Take questions. Remind them: the Dec 11 webinar is 'Turning 18: What Changes.' Registration is on the website. 20 spots.
