Social Security Administration Prescreen Questions

We do a prescreen first, to see if you qualify to apply for Social Security Administration benefits. The prescreen does not decide your case — Social Security Administration decides, in writing.

We are not the Social Security Administration. We are only advocates to help you.

Office note

Free services: 20 people a month. When a client books an appointment, tell them what number they are on the list. Once they are on the list for contact, an email is sent to them. Do the Social Security Administration prescreen first — never tell a family they do not qualify from prescreen answers alone; Social Security Administration decides in writing.
