Your Plan, Built For You — A 1-Year Membership

We look at where your family is, and we build your plan around what you need to work on first. One personal price, set with you and paid in 12 monthly payments. Your membership year starts the day we provide your plan. Planning firms charge thousands to build a plan like this. Ours is built for families like yours.

YOUR PERSONAL PLAN — BUILT FOR WHO IT'S FOR

Priced for your family · 1-year membership

One package. We look at your intake, see where you are, and build the plan that fits — for a family, a child, or a young adult.

✓ **For a FAMILY:** full review of all six areas — SSA, medication, protection, budget, what's in place, road to 18 — with what to work on FIRST marked clear, and every deadline written down

✓ **For a CHILD, ages 5–17:** what to expect at each stage (5–12, 13–15, 16–17), prepare the file now while there is time, and get ready for 18 — decision papers, the $2,000 rule, ABLE, waiver lists

✓ **For a YOUNG ADULT, ages 18–26:** a budget built on their real income, a living plan with real costs and rides, and the SSA filing plan under adult rules — file, and SAVE the Reference #

✓ Your plan is written down, in order, in simple words — and a delivery Zoom with Jessica is included, to walk through it together

How you pay — monthly: your personal price is split into **12 monthly payments**. Your first payment is due when you sign your agreement (we start building), and we provide your plan after that first payment. After your plan is provided, it is yours to follow step by step — and questions about your plan are included free: email us anytime. **Your plan is a 1-year membership** starting the day we provide it — during that year, when your family's situation changes, we update your plan.

ONLY NEED HELP WITH ONE THING?

SSA filing help only — $50 total (paid in full to start): we give you the steps, **you file it yourself**, and Jessica guides you on Zoom — **up to 4 hours included** until your filing is done. Need more time? **$10 for every 30 minutes**

BUDGET ONLY — $25

A 1-hour Zoom walking through your monthly bills, plus the Call-Tools sheet so you can call your bill companies and ask for a lower price. **Or Budget + Credit — $49:** everything in Budget Only, plus a credit review and one month of credit repair with 1 dispute.

Start with the free consultation — we only build the plan that fits what we see. Se habla español. DISCLAIMER: No refunds; NO guarantee of approvals; not legal attorneys.

Office Guide — Building & Delivering The 3 Plans

One personal price, paid in 12 monthly payments. We start building when the first payment is received, and the membership year starts the day the plan is provided. The family leaves with a written plan and their order of work.

Why these prices (believed, but low)

Planning firms' average flat fee to build a plan is $2,926 (Envestnet 2026), and a San Antonio firm starts comprehensive planning at $4,000. Your Southern Oak price is set with you, for your family — a fair price for real professional work, set for middle and low income families. Never apologize for the price; name what firms charge and let the family compare.

What you deliver — the FAMILY build · Your Personal Plan

• The completed Review sheet (all six areas: where they are / what they need / first step).

• The written plan document: order of work 1-2-3 with the FIRST thing marked, deadlines listed with dates, and who does each step (family / Jessica / partner).

• Delivery Zoom (45–60 min): walk the plan, answer questions, offer guidance Zooms as the way to keep it moving.

What you deliver — the CHILD build (5–17) · Your Personal Plan

• The stage map: 5–12 (build the file, benefits & school records), 13–15 (watch growth/medical changes, start lists), 16–17 (decision papers, money check, waiver lists, normal-day notes).

• The preparation checklist: every record to gather now, in one list, with where to get each one.

• Delivery Zoom (45 min): the plan + the 'start this month' first step.

What you deliver — the YOUNG ADULT build (18–26) · Your Personal Plan

• The budget sheet: their real monthly in/out — benefits, any work income, rent/living costs, bills, food, rides — with one fix and one savings step (ABLE).

• The living plan page: living option chosen, real costs, ride plan, daily-life supports, emergency contact.

• The SSA filing plan: adult application (or age-18 review) steps with dates — documents, ID.me, file, SAVE Reference #, exam/letters watch, denial step.

• Delivery Zoom (45 min) with the young adult (and family, if they want them there).

Office rules

• Set the family's personal price with them and quote it in writing before work starts; the Personal Plan is a 1-year membership paid in 12 monthly payments — work starts when the first monthly payment is received, and the membership year starts the day the plan is delivered. Plan updates during the year are included when the family's situation changes.

• Sell only what the intake shows they need. A child of 8 does not get Package 3; a young adult on their own does not get Package 1 unless the family is the client.

• These packages sit on top of the free consultation + Review sheet. The Review stays free — it is how the family sees the need before they pay for the build.

• Credit work is not inside these plans — a credit review plus one month of credit repair with 1 dispute comes only inside Budget + Credit ($49). Standalone credit repair is not offered.
