Your stage map — what to expect, and what to do

Stage	What to expect	Your family's job in this stage
Ages 5–12	Benefits and school years. Records are being created now that SSA will read later.	Build the file: keep every doctor, hospital, and school paper. Keep benefits letters. Note changes each year.
Ages 13–15	Growth and needs change. What a normal day looks like matters more each year.	Update the file yearly. Start normal-day notes. Get on waiver lists if not already — lists are long.
Ages 16–17	18 is close. Adult rules are coming. Decisions must be made BEFORE the birthday.	Decision papers (guardianship / supported decision-making, POA, HIPAA). $2,000 money check. ABLE account. ID.me ready.
