Caring for the Caregiver — Key Notes (Nov 13, 2026)

Keep this next to you during the webinar. Plain words, the key lines, and what to say when a question gets personal.

The one-page version

Caregivers Month webinar — a night FOR the caregiver, not a forms class. Flow: signs of running on empty → medication time made easier + free check → money basics + call-and-ask → where help lives (2-1-1, respite) → one small break.

Lines to say exactly

'You cannot pour from an empty cup.' 'A break is not giving up — it is how caregivers last.' 'The medication check is free for everyone — always.' 'Dial 2-1-1 — you do not have to know what to ask for, just call.'

Keep it virtual-friendly

Everything tonight is done from home: one list, one page, one call. Invite them to take a photo of the list slides.

Never promise

No approval promises, no savings promises. Programs depend on the medicine and the family's case. SSA decides benefits; companies decide discounts.

If you get a hard question

Say: 'That one needs your family's private details. Book your free first talk and we will go through it together.' Then move on kindly.
